CORPORATE SOCIAL RESPONSIBILITY

A globe made of wood, held by several hands of different skin tones. The globe is intricately carved with a world map and small figures of people. The background is a solid blue color.

Through the Joga Ram Group's Corporate Social Investment arm, the Al Fara'a Foundation, we approach corporate social responsibility with a long term view and treat every corporate social initiative as an investment into the future of the communities in which we operate.

Founded in 2009, the aim of the Joga Ram Foundation is to harness the collective capacity of the Joga Ram Group of Companies to meet the needs of our stakeholders with a deliberate & value seeking approach.

The Joga Ram Foundation bases its approach to Corporate Social Investment on a five pillar model of Care, Empowerment, Growth, Nurture and Challenge. Coupled with a balanced application of reward versus benefit, the Joga Ram Foundation seeks to encourage non financial contribution in the form of Joga Ram employee engagement and the access to multiple resources within the Group.
